Arrival of the Europa.

New York, Nov. 13.

The steamship Europa with Liverpool dates to Nov. 1st, arrived here at 1 p. m. The Arago arrived at Southampton on the 31st ult.

The Liverpool American Chamber of Commerce, publishes the address to the Southern Chamber, complaining of the false packing of cotton.

No news whatever from Spain.

The Neapolitan question remains precisely where it did, the only additional incident being that the Government had addressed a circular of moderate tone to its different agents, and that the King has sent M. D'Arzant, a Frenchman in his confidence, to Paris on a secret mission.

A dispatch states, although perhaps without authority, that a French expedition to evacuate the Danubian Principalities, the Austrians have returned a flat refusal.

This matter of the principalities has assumed a prominence over other topics. The French Government journals assert, definitely and explicitly, that the Porte has demanded in the form that the Austrians shall evacuate the Principalities and the British the Black Sea, but that they, by a secret mutual understanding, refuse to leave.

The English journals under the immediate inspiration of the Government deny on the contrary that any such demand has been made by the Porte.

The papers generally, British, French and German, speak in undisguised terms of the completion or progress of an alliance between England and Austria and between France and Russia.

It is now stated that Russia has proposed to refer the question of the sale of the Isle of Serpente and Belgrade to Constantinople for settlement.

Isaac Martin, President of the Board of Brokers, failed to meet his liabilities today.

The steamship Empire City arrived today with Havana dates to the 8th, but the news is devoid of interest.

WASHINGTON, Nov. 15.

Mr. Pennington, chief clerk in the Second Auditor's office was dismissed yesterday, and Dr. Cathcart appointed in his place.

The President has been closely occupied day in the preparation of his annual message.

It is said that he will indirectly review his own administration and show what is accomplished, especially in connection with foreign affairs.

The statement that Ezra D. Andrews, consul at Quebec, had been removed, is erroneous.

A PARALLEL CASE.—The New York papers contain the details of an investigation into charges preferred by a lady teacher in one of the Ward Schools, against one of the Trustees, for impermissibly and insultingly making advances towards her—in short making love to her, after the most approved form. His co-trustees found him guilty, and by a unanimous vote requested him to resign. The Tribune makes quite a fuss over the matter, still holds the miscreant up to the indignation of the public.

What! What would the Tribune think of a parallel case from the West? Suppose a man venerable in years, and revered by profession, himself a band and father, were elevated to the Superintendent of one of our State Benevolent Institutions, and should then, in practice upon its unfortunate inmates the arts and wiles so well known to the seducer—hold them upon his lap—pass his hands over their persons—Ondank their bosoms—and fill their ears with the language of the brother, would not the piety of our New York brethren be sensibly shocked at the recital of these atrocities? And yet such things pass by us, in this neck of woods, as the idle wind, and may possibly be a passport to a higher and more responsible office. We might locate the incidents to which we refer, but it's no use—there are none so blind as those who won't see.

Ind. Journal.

SEVERAL NOTICES.

FOR A LODGE IN SOME VAST WILDERNESS.—Sir, it is undoubtedly the extension of the human race which must be performed under the rays of a burning mid-summer sun, are rare to make; but there are many persons who are in the habit of risk of health if not life itself, unless the proper precautions are taken to prevent the bad effect of easily generated by impudent exposure. Carter's Spanish Mixture, the unrivalled Purifier of the Blood, possesses in a remarkable degree the cooling and purifying influence over the system so necessary in such cases. Its singular power over the blood, its gentle mode of action, its strengthening, vivifying and invigorating qualities, its known tendency to prevent disease by expelling all humors from the blood, and its effect on the system of poisonous infection, has gained for it a place among the highest and most efficacious of medical science. It is a positive cure for Scrofula, Fever and Ague, Liver Disease, the effects of Mercury, and all such diseases, as thousands who have used it have grateful cause to thank the trial of a bottle will satisfy any who may be unacquainted with its effects.

A SERIOUS TALK.—We wish to impress upon the people of this rapidly growing country, many of whose members are leaning on the bodies of disease which may in time develop itself in the form of Scrofula, Rheumatism, Syphilis, Mercerial infection, or other kind of disease, which they get far hold of the system soon leaves the constitution but a shattered wreck, that among all the medicines yet known, Carter's Spanish Mixture is the only one active and unaltered, Purifier of the Blood, containing neither mercury, Arsenic, Opium, or any other dangerous drug or noxious herb, so generally used in such cases. It will possess a power over the blood, rendering it pure and healthy which before its discovery was of all others the thing to be desired. It cures Scrofula, Rheumatism, Syphilis, Fever and Ague, and all that class of diseases, by expelling from the blood all impurities which clog and disturb the circulation of the system. More than a thousand cases have been permanently and radically cured by its use, and we take pleasure in extending its field of usefulness by advising our friends to try it.

Liver Complaints and Dyspepsia.

THOMAS LATCHFORD says:

Covington, Ohio, Dec. 27, 1863.

"My wife has been afflicted with the Liver Complaint and Dyspepsia for a number of years, during which time I have spent a great deal for doctoring, but she received very little benefit therefrom, and finally the doctors said she could not be cured. Last spring she was taken with the Liver Complaint, and she took two bottles, and ever since taking them she has been able to attend to her business. I have sold quite a number of bottles through her recommendation, and as far as I can learn, it has given satisfaction to all."

Hoffman's German Bitters.

Certificate of Ralph Lute, Esq., Editor "Spirit of Times," Troy, N. Y., October 30, 1864.

Dr. C. M. Jackson—Dear Sir:—Two Bitters

have great medicinal force. In addition to the benefit yielded by *Keyes's Bitters*, you recognize the two other stores left more of them than any other medicine. I find they are much used by convalescent fever patients to rebuild their broken constitutions. I have used during the last summer, in my own family, four bottles. They were recommended to me first by a neighbor, at a time when my system was much debilitated from the effects of a severe Bilious Fever. They... as an appetite, and restored a tone and vigor to my whole system. In one of the September numbers of your paper I related my experience of the good effects of the Bitters, since which time they have had a large sale, and have now become the standard medicine in this vicinity.

In conclusion, I would say that I feel great pleasure in giving you this testimony of the value and success of your preparation.

Respectfully, yours, RALPH LUTE.

Purify! Purify!!

THE GREAT

SPRING AND SUMMER

MEDICINES!

Hurley's Sarsaparilla.

Of all the remedies that have been discovered for the treatment of the present age, for the "thousand ills that flesh is heir to," none equal this wonderful preparation. Only three years have elapsed since the discoverer (who spent a decade in studious experimenting and perfecting it) first introduced it to the public, and it is already recognized by the most eminent physicians in all parts of the country to be the most surprising and effective remedy for certain classes of which they have knowledge.

All other compounds or syrups of the root have hitherto failed to command the sanction of the faculty because, on being tested, they have been found to contain "noxious ingredients," which neutralized the good effects of the Sarsaparilla, and oftentimes injure the health of the patient. It is not so with Hurley's preparation.

This is the pure and genuine extract of the root and will on this, be found to effect a certain and perfect cure of the following complaints and diseases:

Affection of the Bones, Habitual Constipation, Debility, Indigestion, Liver Complaints, Diseases of Kidneys, Piles, Dropsy, Erysipelas, Pulmonary Diseases, Female Irregularities, Scrofula, Syphilis, and All Skin Diseases.

Besides curing the above, it is also known to be a great and powerful tonic, purifying the blood and invigorating the system.

In short, it is without exception in the masses mentioned and its general effect on the system, the most efficacious, as it is the most desirable, remedy of the age. It is already extensively used throughout the country, and is fast obtaining a European reputation.

The instances of cures it has effected are daily coming to the proprietors knowledge, and as we have no hesitation in recommending it to one and all who desire to procure relief from the above and other ailments, its effects will be too apparent to admit of further doubt.

Recollect Hurley's Sarsaparilla is the only genuine article in the market.

Price \$1 per bottle, or six bottles for \$5. For sale at the manufactory, corner Seventh and Green streets, Louisville, Ky.

Wholesale, J. B. Wilder & Bro., J. S. Morris & Sons, Wilson, Starbuck & Smith, Louisville, Ky. Allen & Co., and J. D. Park, Cincinnati, Ohio.
